Step-by-step Cheat Sheet to Start a Blog Right Now

It’s time to stop your fear.

I will help you with your first steps to a successful blog. And today you will be proud of yourself that you started your own blog.

But you need to act right now!

Here’s your starting point:

1. Simply follow this link to get your blog hosting and domain name.

   Then click on the orange button in the first column of the StartUp plan.

   * I recommend this particular company because I chose it for iwannabeablogger.com by doing in-depth research and because successful bloggers (> 1,800,000) trust them. If you make a purchase through this link, I’ll earn a small commission at no extra cost to you (in fact it’ll save you money). I only promote things I use and love myself.

2. Register a New Domain.

   Name your blog (it will be a domain name) —two-four words describing your experience and knowledge. Or two or four words that most often come up when you think of those you want to help. Or the easiest way is your first and last name together.

   Looking for examples? Here’re the names of my favorite blogs: enchantingmarketing; socialmediaexaminer; bloggingbasics101; amylynnandrews, howntostartablogonline; smartblogger; jeffbullas; matthewwoodward; allbloggingtips; melyssagiffin; theresetothetop; blogmarketingacademy; bloggerspassion; searchenginejournal; bloggingwizard; ilovemarketing.
3. Pay $63.35 (your 60% discount included) for 12 months of hosting + domain name.

Don’t choose any additional options. You don’t need it.
4. Install WordPress.

Choose "Start a new website".

Then click on the WordPress icon.

Write your future username and password that you will use to log into the admin panel of your WordPress blog.

Click Confirm.

Click confirm again.

Then check the Terms and Privacy. And click Complete Setup.

5. Your blog will be ready in a few minutes. You did it!
Now click Proceed to Customer Area.

And here we are signed into SiteGround.

Navigate to My Accounts on the menu.

There will be two links.

One leads to your blog. The second to the admin panel, where you will write new posts and customize your blog.

No need to be tech-savvy. Each step will be intuitive, and the support team is 24×7 ready to help.

What's next?

You're trying to research and learn all things at once.

BIG mistake!

So you only grow your fear.

The secret of successful blogging is to focus on one task at a time. Now your job is to start a blog.

Do it! Don't overthink it.

Write me an email at mike@iwannabeablogger.com that you started a blog.

And I'll give you advice with your next steps.
If you still haven't decided to start a blog, write me **WHY**.

What is holding you back?

I will try to help overcome this obstacle.

See you!

Michael Pozdnev
